HARRIS,

The ONE-PRICE Clothier, ST. LOUIS BLOCK, MAIN STREET.

It is useless for any person, who has been in our store for the last month, to say "Harris, how's biz?" If they were not blind they could see "biz was good." Why was it good with us when every clothing firm in Helena has been an active member of the "kickers club."

Why, simply because we showed about as many styles as all the other houses combined. And when a man felt that he did not want to work a whole year for the merchant tailor, in case he needed a summer suit. he put a double eagle and calls on us, sees just as well made, just as good fitting and much more stylish garments, and as a natural consequence buys his suit and keeps

Did you ever hear about our clearing sales? We l, we are about to start one, pretty soon, and you can safely gamble that what little fur is left on the hides of some of our moss backs will fly when they see the prices we quote. Among them we will mention some of the specialties.

Don't you call to mind that pretty line of Irish tweeds, the production of Hill & Son, of Dublin! We had them in two colors—gray and brown. They were about as universally admired as anything we have offered this year, but many peo ple thought they were high; but they were not. The trouble was, they were not appreciated; Wagons, Harness, Etc. knife goes into them just the same, and the consequence is, from this day the \$22 is

scratched and \$17 appears. But we have plenty other plums for those to eat who have money to buy. The express FOR ONE WEEK has brought in 200 suits, summer weights, that were purchased at 65 cents on the dollar and they go for the same percentage. Many of these lots came in our first purchases and were marked \$20, \$22, up to \$28. Now none of them are marked over \$20, and although it is a rank shame, we have let some of them out at \$10. You

ahead on nearly any of these You've not heard of any sunstrokes this year, have you? Do you know the reason? We can tell you. We have had no hot weather; for the same reason we have sold but few of our summer specialties in coats and

vests.

Now, if there is anything we pride ourselves on, it is selection of these goods. Just take a look at our north window. You will see the prettiest assortment you ever saw in your life. Mohairs, crepes, pongee serges and silks; the variety is great and would be if the season had been propitious. We have seersuckers at \$1, coat and vest. We have stripe and cross-bar lisstres at \$5, which our competitors hold at \$7. We have in the finer grades, goods that cannot be purchased outside of our house for love nor money. As we say, the greatest variety, the greatest profusion ever offered

to a Montana public. In fact, all our lines are remarkably low in furnishing goods. In Hats, in Shoes, all as cheap as consistent with good grades and best workmanship. New York, July 10.—The water which came up over the village of Johnstown last night subsided this morning, but left seenes of destruction in every direction. The water rose fifteen feet and overflowed everything. It has now fallen eight feet.

The water rose fifteen feet and overflowed everything. It has now fallen eight feet.

Twenty people are reported missing, and the bodies of four have been recovered, all Johnstown people. The drowned and missing people were among a crowd of thirty to fifty who stood on the stone bridge at Perry street watching the rising water, regardless of the danger until the bridge gave way. The bridge was twenty feet high and fifteen or twenty feet wide. Most of those thrown into the water were saved. The sudden rise of Cayadatto creek is supposed to have been occasioned by a cloud burst. Eight or nine bridges were swept away. Two tanneries and the dams of the electric light plant and many buildings were damaged. The pecuniary loss is small, probably \$20,000. A reporter accompanied was introduced to Kılrain and his party. Kilrain was very sick, and from all appearances was badly used up. The fact that he was sore from ring punishment could not be better illustrated than by noticing him when he attempted to put on his coat. This was difficult, and was not accomplished without the assistance of Mitchell, who carefully helped him on with it. Mitchell was not careful enough, and when the coat was being pulled off it was noticed that the puglist flinched as if in great pain. He was finally seated and supported by big fat pillows. The owners of the Great Eastern are taking out plenty of ore also. The Yellowstone is being put in good shape and producing more ore than ever; and it is hoped will soon be in condition to keep the smelter running.

A gentleman representing the Helena Smelter company was here a short time since negotiating for the ores. He is reported to have said there is abundant ore in sight to justify the building of a railroad here, and Mr. Oakes is reported as saying the route from Livingston and also from Toston will be surveyed immediately. Surveyors of the Manitoba road, with Mr. Emrich, of the Great Falls smelter, are here now. It looks altogether as though

Where there were no evidence of mineral should be open to patent, that persons who settled upon public lands or purchased lands in good faith should understand that this was his policy and that Acting Commissioner Stone was in accord with him. The secretary also informed Delegate Carey that he might say to the settlers of Wyoming that they would have their patents and that in addition to home rule every proper encouragement would be given to efforts looking to advancement of the territories and their admission as states whenever they are prepared to assume the duties of statehood.
